

Dear Madam / Sir,

Businesses and individuals rely heavily on water resources and managing them is quite a challenge. With the emerging times comes the emerging need to apply innovative and cost-effective water, wastewater and environmental management solutions.

Indwa Technologies Pvt. Ltd. (Indwa) is an integrated water resources management company that deploys unparalleled expertise and extensive industry experience to address your water woes.

Indwa is credited with bringing the latest systems and technology in water and wastewater management to India. Our resourceful solutions, products of continuing technological innovation, and top of the line service, provide establishments with substantial cost reductions and safety improvements for all their water systems. Our customer-unique Zero discharge solutions, and our 100% recycle technologies have benefited many a client immensely. We have proven competence in the establishment, running and maintenance of Sewage treatment plants, Effluent treatment plants, CETPs etc.

Donning various roles - that of consultant, planner, developer/product specifier and construction manager - we provide a well packaged, cost effective bouquet of services for our clients. We have also carved out a significant niche for ourselves in the agriculture water management segment.

Team Indwa's portfolio includes projects of massive proportions and has earned for it, the status of the 'leading Water and Wastewater Management Company in Hyderabad.'

At Indwa, we are all geared up to 'rein' water for you. We look forward to meeting you to bring our industry experience to work for you.

With thanks and regards,  
Indwa Technologies Pvt. Ltd.
